科目概要記入欄

1. 開設大学	叡啓大学ソーシャルシステムデザイン学部		開催方法	■対面（本学）			
				□オンライン（同時・録画・資料提示）			
				□その他（ ）			
	2. 正式科目名 副題	Environmental (English)		Economics	配当年次	2. 3	
				受入学年	2. 3. 4		
学問分野	番号	43	名称	環境			
3. 担当教員名	石川 雅紀						
4. 単位数	2 単位		5. 開講学期	後期前半			
6. 開講期間 曜日・時間	2026年 10月 6日（火）～ 2026年 11月 17日（火） 火曜日 9:00 ～ 12:30						
7. 基礎知識の有無	・「基礎知識を必要としない科目」						
8. 募集人数	若干名		9. 選考方法	叡啓大学学生の履修者が定員上限に達しない範囲で受入			
10. 科目内容・ 授業計画	In this course, students will learn the basics of a system to analyze the mechanisms by which environmental problems occur and how to deal with them from an economic perspective. The students will be able to understand the concept of public goods and understand that public goods whose environmental value cannot be evaluated in the market are the causes of environmental problems. They will be able to understand the characteristics of policy measures, such as environmental taxes, emissions trading, gross emissions regulations, and voluntary agreement as a means of solving environmental problems. [Group work will be the main part of the lecture. The students need to prepare for the class and explain to other students and the lecturer what they do not understand at the time in class. For this reason, the students must read textbooks before every class and preparation papers are assigned. In class, students will ask their questions and unclear points in a group discussion, share the results with the whole class, and then the lecturer will add necessary explanations. The evaluation consists of presentations, group discussions, preparation documents, and reflection papers conducted in class and exams. Students are expected to participate in this course actively.
